Attachments: SnipImage.JPG

Since 2014, CRW got \$37.5 million in loans from PENNVEST and a \$13 million grant for GI. Capital Region Water** – received a \$13,000,000 loan to implement four phases of Capital Improvement Plan green infrastructure improvements in South Allison Hill, Camp Curtain, Lower Paxton Creek, and Uptown areas surrounding the city of Harrisburg. The project will reduce wet weather discharges into the Susquehanna River and aid in satisfying a local consent order.

Also, City of Lancaster** – received an \$11,200,000 loan to upgrade an existing pump station, replace and expand 5,600 feet of pipe, and upgrade 4,500 feet of interceptor piping. The project will replace a conveyance system at the end of its useful life, but is also part of a long-term control plan to bring the system into compliance with a federal consent decree.

Steve,
Attached is a snip image that lists the CWSRF loans that have actually been executed. In addition, here is the link to a PENNVEST press release from October 2019 that includes another \$13 million loan that has been approved by the PENNVEST Board – this is probably the application that they referred to.

Hi Maggie,

Redacted

I have a settlement conference with Capital Region Water, Harrisburg, PA on June 25th that both Jenn and Cos will attend. CRW has been telling us they received a \$13 million grant to conduct GI and they are applying for \$60 million loan from PENNVEST. Can you tell me what they have received and do you know if they applied for any loans.

I appreciate your assistance.
